

### **Worship Computer**

Has 3 logins Admin , Worship and General.

Windows 11 with Standalone Office Pro 2021 and Nortons 360 antivirus.

Only to be Used for Worship service

Has Multi Screens and was Purchased 18 May 2023

Intel i7 Cpu 1170 ,16 Meg of ram ,2tb of M2 ssd and a 12 Gb Geforce RTX 3060 GPU, Asus Motherboard and Liquid Cooling CPU .

### **MIXER Computer**

Has 3 logins Admin , Worship and General.

Windows 10

Only to be use by persons trained to use the Digital Mixer

Old Mini Computer i3, 8 gb ram 240gb ssd. Age not known

### **Streaming Laptop**

Has 3 logins Admin , CCL1 and Stream.

CCL1 is for cook Islanders,

Windows 10

Only to be use by persons trained to use Live streaming

Has OBS and video capture card input from Video Mixer

Has Chrome with Login for YouTube

Has Ms Edge for Login For Facebook

Only used for live streaming

Asus Laptop i7 , 8gb ram Age not known

## **Office Computer**

Has 3 logins Admin , Office and General.

Office login is only ever to be used by the Office Administrator due to Confidential Files.

All Documents are back up to a 2 bay mirrored USB NAS Locked in comms Cabinet and File security and backup is Controlled by a Server which is running Server 2021 Standard.

Files are Shared to appropriate Groups as network drives .

Office Login and General Login have standard user rights.

Windows 11 with Standalone Office Pro 2021 and Nortons 360 antivirus.

Office PC is never to have MS Edge synced or logged in .

Has Printer connected via USB and software to scan .

General login has no documents other than what is shared from map drive .

General Login has a password .

Asus PN62 mini Pc . Intel i7 1050 , 16gb of ram and 500gb M2. ssd, UHD intel Graphics card.

Purchased 16 June 2023.

Has a Kennington lock key held in Admin Key Lock Box

## **Standalone laptops for General Use**

HotDesk 1, HotDesk 2, Training 1, Training 2

2 Logins Admin and Device name.

Device name has no password.

Windows 11 and standalone Office Pro 2021, Nortons 360 Anti Virus

Account is Standard user.

Should Never have MS Edge Login or be synced or Never have Outlook setup for mail

Admin account password is only to be used unless a change or software need to be added . And only be used by a qualified IT person Never by someone who is just a user.

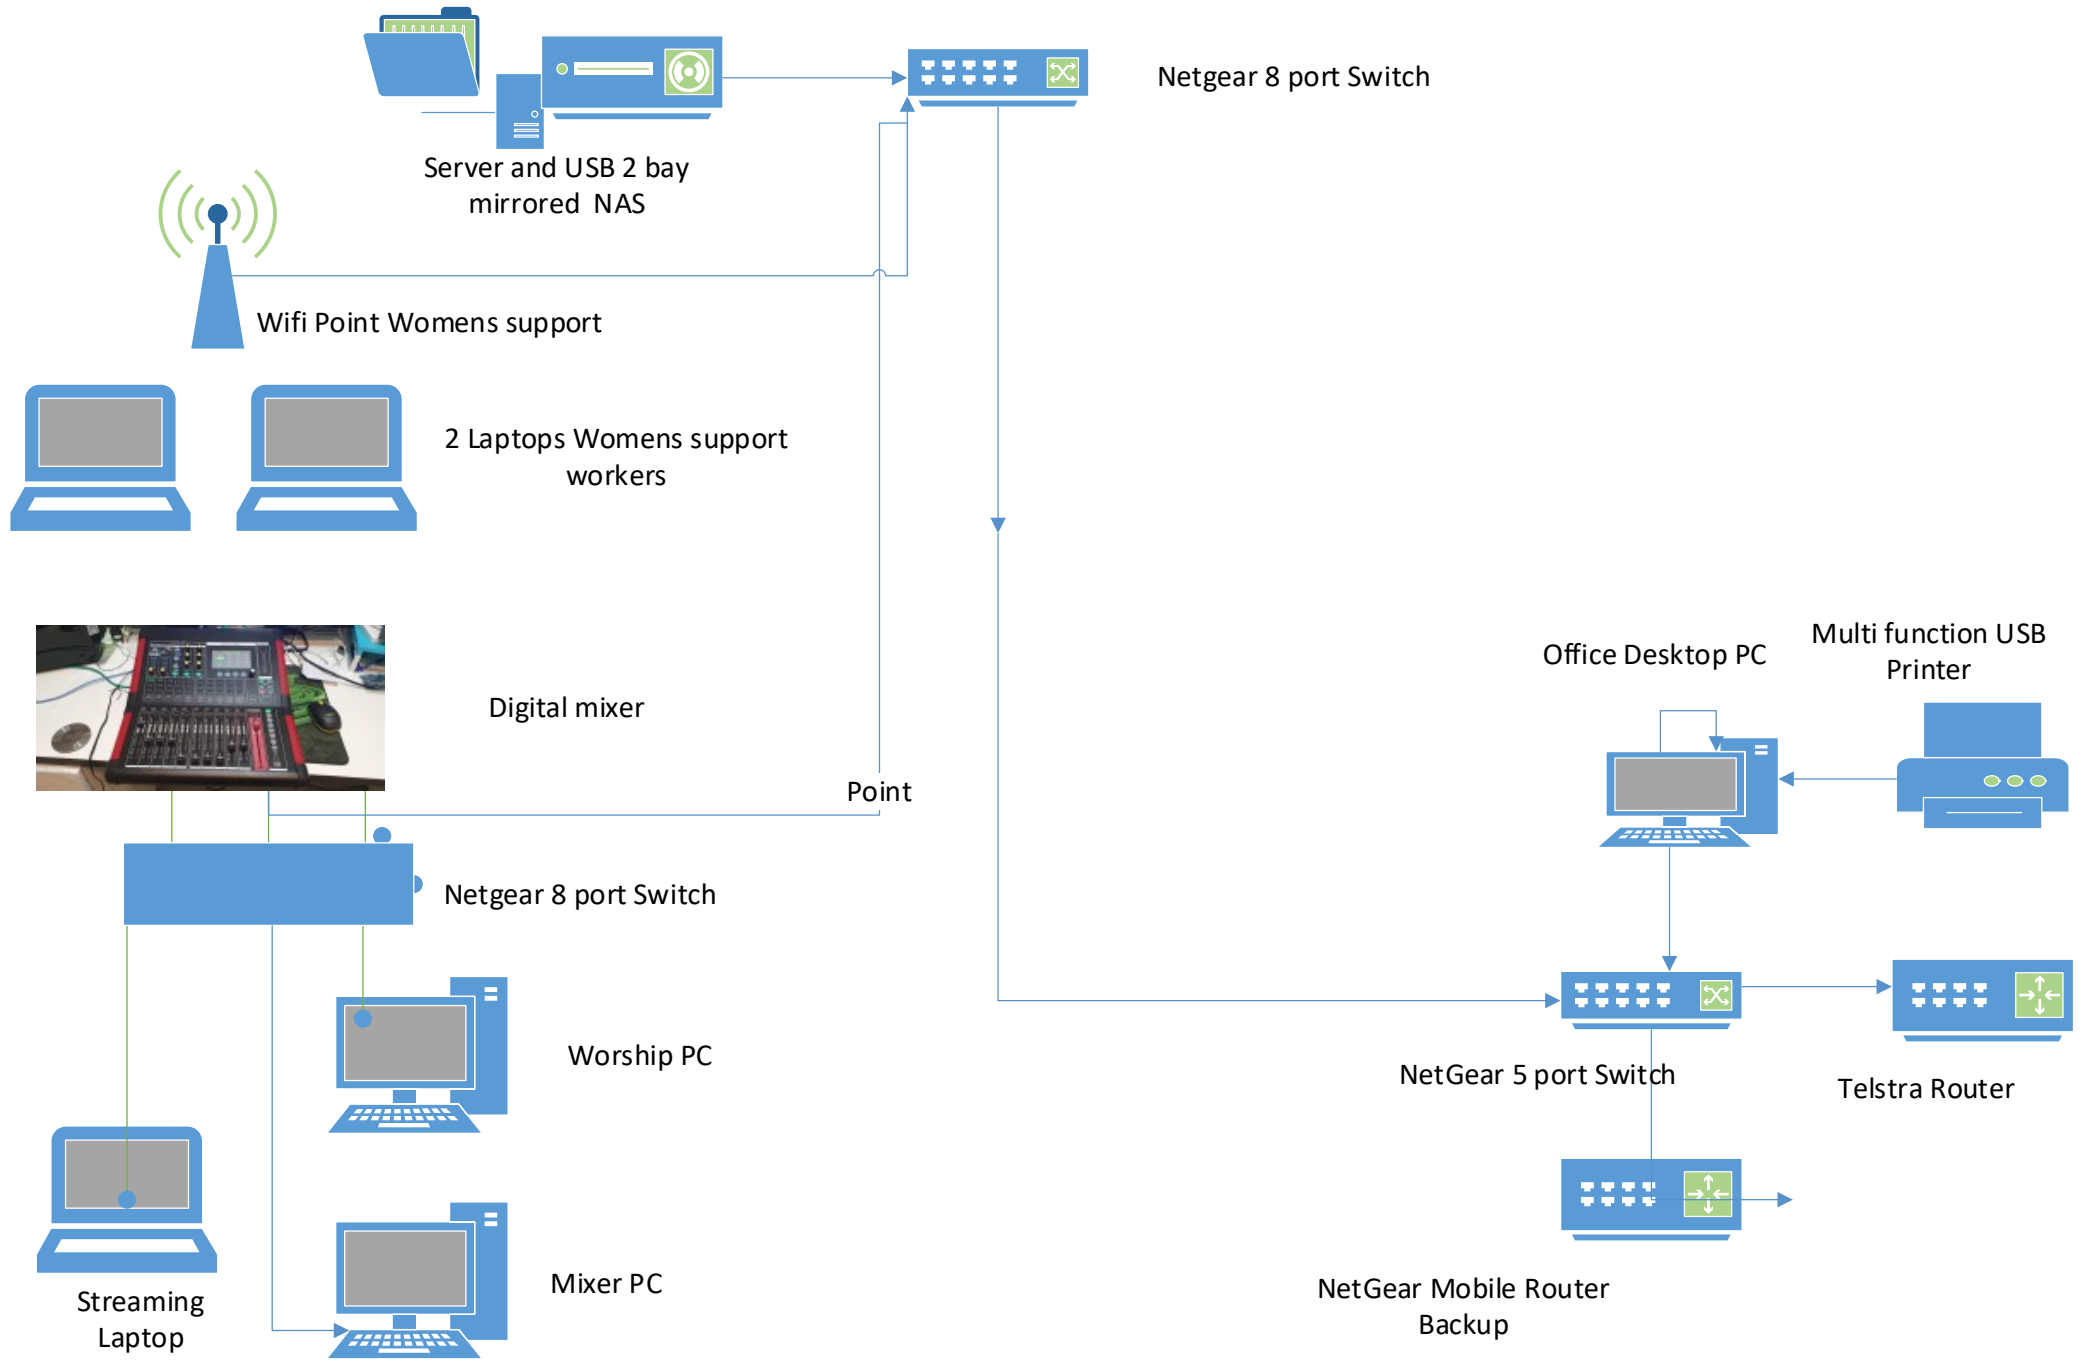

Training 1 & 2 Purchased 22 June 2023

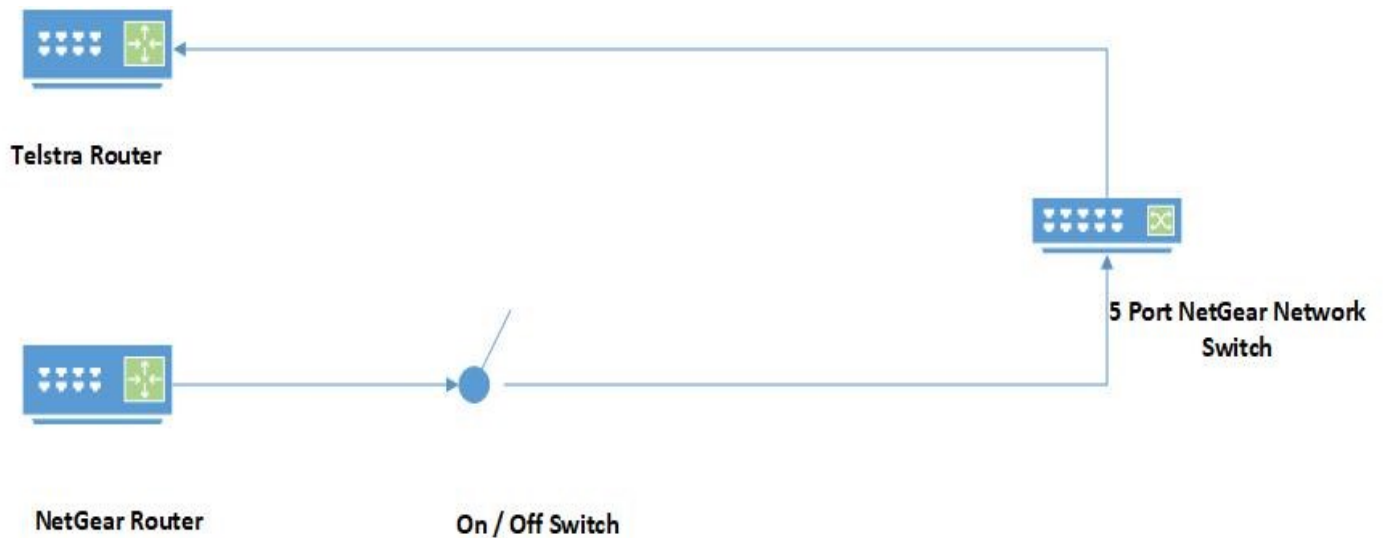

Acer 14 Aspire Celeron CPU , 8 Gb Ram , 128 eMMC hdd. 14 " 1366x768

# Confidential Report

**Lack of Governance transparency , law breaking , immoral, .**

**These Event have taken place after June rebuild because of exposure to the general public of Private information being synced across all of the churches computers Inc. Passwords , private, confidential information .**

**Worship , office , hotdesk 1, 2, English Class machines 1,2 . Desktop HP with different users they have been rebuilt with standalone Microsoft office versions Installed . ( June /July removal of 365 Office and ONEDRIVE , browser Syncing and council banning the use and exposure of confidential and private information being exposed**

## Summary

### Council rules that have been broken

Passwords Novemeber 2022 were ask to be subbitted so we have a master registry.

Now 14 Months Later the Web Site Niki Created passwords have not been handed over.

June/July 2023 Niki was ask to hand over the details and passwords of what work and how the Support Workers Laptops were Set up .

**David Leak after being advised by council not to do any IT or Media Work and copyright issues.**

David sets up for Cook islander to use and sets up a laptop and Sound system when that Has not been requested and not part of there MOU then after

(Unauthorised) — Decided to check out a cable that had been disconected to stop Users/renters of the church playing with IT Equipment not in the rental or hire or use of IT /Media Equipment and breaks an audio cable Says nothing and Which on Sunday morning setting up for worship and Live Streaming I found no audio from the computer as well as a blank panel being removed . Making worship service to run late and I had to spend 30 mins finding and fixing the issue when there was no need and no council approval for this to be done by David .

## Legal laws that have been Broken as well as Council rules

- Church Safe Office - Left a drivers licence in the office IN Box for 2 weeks . ( given that everyone walks in and out of the office inc public .
- Knowing the seriousness of what happened with Privacy Left support workers Laptops with out a password allowing any one to see client confidential information .
- David using the Worship equipment for a Wedding with out approval of anyone and we only found this out after the event .

He also ran YOUTUBE clips Which has been banned on being since we started live streaming unless there is a clear indication of no Copyrights .using

the council had been informed about Copyright issues after a Funeral and 2 or 3 of Nov 2023 which banned the use of copyright material

Then in Jan 2024 when copyright issues were raised again David informed the council about how we don't use YouTube etc

Yet he never admitted to going against church council rule of no use of Worship equipment in a hire or use of the church as well as he played a few YOUTUBE Clip during the Wedding see Fig 1 Especially after explaining to council meeting we don't use YOUTUBE clips they have been banned for 3 years .

At least 7 clips were played see Fig 1

### **1.4 Million Dollars of fines breaking Copyright Laws .**

- Booke had finished employment David Leak with out the chairperson being advised Took upon himself to allow Brooke to take home the Laptop.( yes as a employee always allowed to take home laptop ) BUT as No Longer employed the laptop must be handed in .The charirperson should have been ask and advised before David gave approval of IT STUFF ( which he has been advised on Numerous occasions he is not allowed to do IT or Multimedia Work )

See FIG 2 the Laptop was return I found the the Churches Intellectual Property had been destroyed .the Laptop had been Formatted and returned with No mail , No files , no Software ,

**This is a hacking . A lost of Intellectual Property is Legal offence by law and could result with Jail time . Appendix 1**

- December 2023 - David and Mark Videoed a ukle group which was not authorised by church council . Breaking Copyright law
- Diane leak after being advise by chairperson about videoing a entertainer at the Christmas lunch still went ahead and video the entertainer and had Mark editing the video when she was advise to hand over and not do anything with the recorded material .

### **Millions Dollars in fines for breaking Copyright Laws .**

**FIG 1**

**Clear that the council decision has been Ignored**

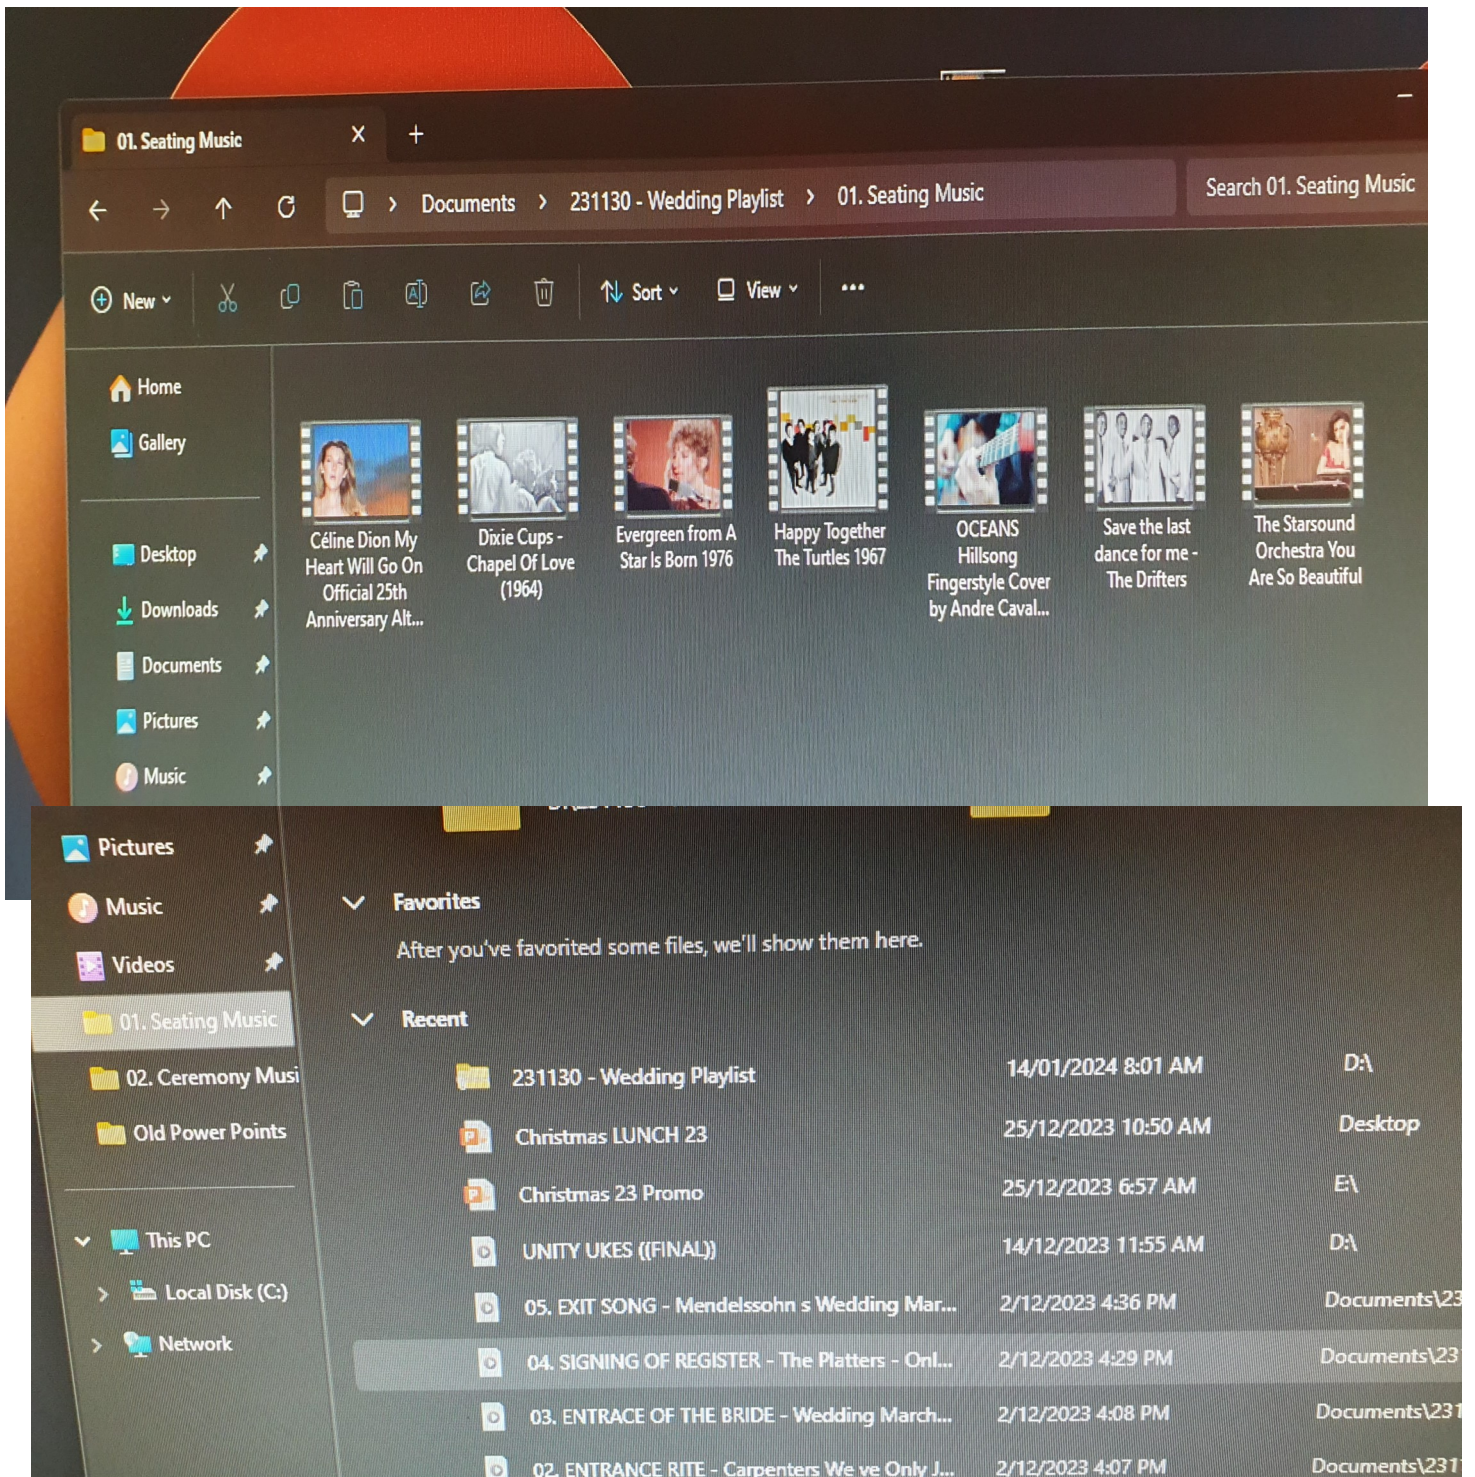

**And Put the Church at Risk for over 1.4 Million Dollar**

**Fines in Copyright law NOT To mention,**

**THE wedding had not had permission to use the churches media system**

**Yet David Used this in a Wedding and Play these clip and maybe more with out**

**permission And Playing YOUTUBE CLIPS WHICH HAD BEEN BANNED FOR ABOUT 3 Years Because of Copyright**

em selected 1.67 GB |

**Fig 2**

**This is how the laptop was returned without Church Software (Microsoft Office , with out church emails or data )**

**Churches Interlectual Property had been un authorised removed**

**Brookes Laptop above**

Support worker Sue Reported only in December that after Niki made changes April — May 2023

Her laptop was so slow it was almost unusable . Apart from the fact that no password was set up allow client (Privileged private information to be potentially exposed )

After backing up Documents (NOT MAIL AS NIKI Has not advised how this was done ) I removed the 365 Office mail etc.

Loaded Standalone Microsoft Office , When I went into the Microsoft account the I had set up in the Churches Name Hampton Park Uniting Church to register and activate the software ( last use Sept /Oct 2023 to setup different user and email eg Christmas Lunch )

My Password didn't work

## Security code

Please use the following security code for the Microsoft account [ad\\*\\*r@hamptonparkunitingchurch.com.au](mailto:ad**r@hamptonparkunitingchurch.com.au).

**I am the only one who has access to the administrator email and the Microsoft account.**

Below image was what I discovered when I logged in to

Administrator@hamptonparkUnitingchurch.com.au on Microsoft account

Microsoft 365 With One Drive And Diane Leak Documents Not The Standalone I had Set UP

As 365 has been Added this has Not been Authorise and the Council Had Banned the use .

**This is Hacking, UNAUTHORISED access**

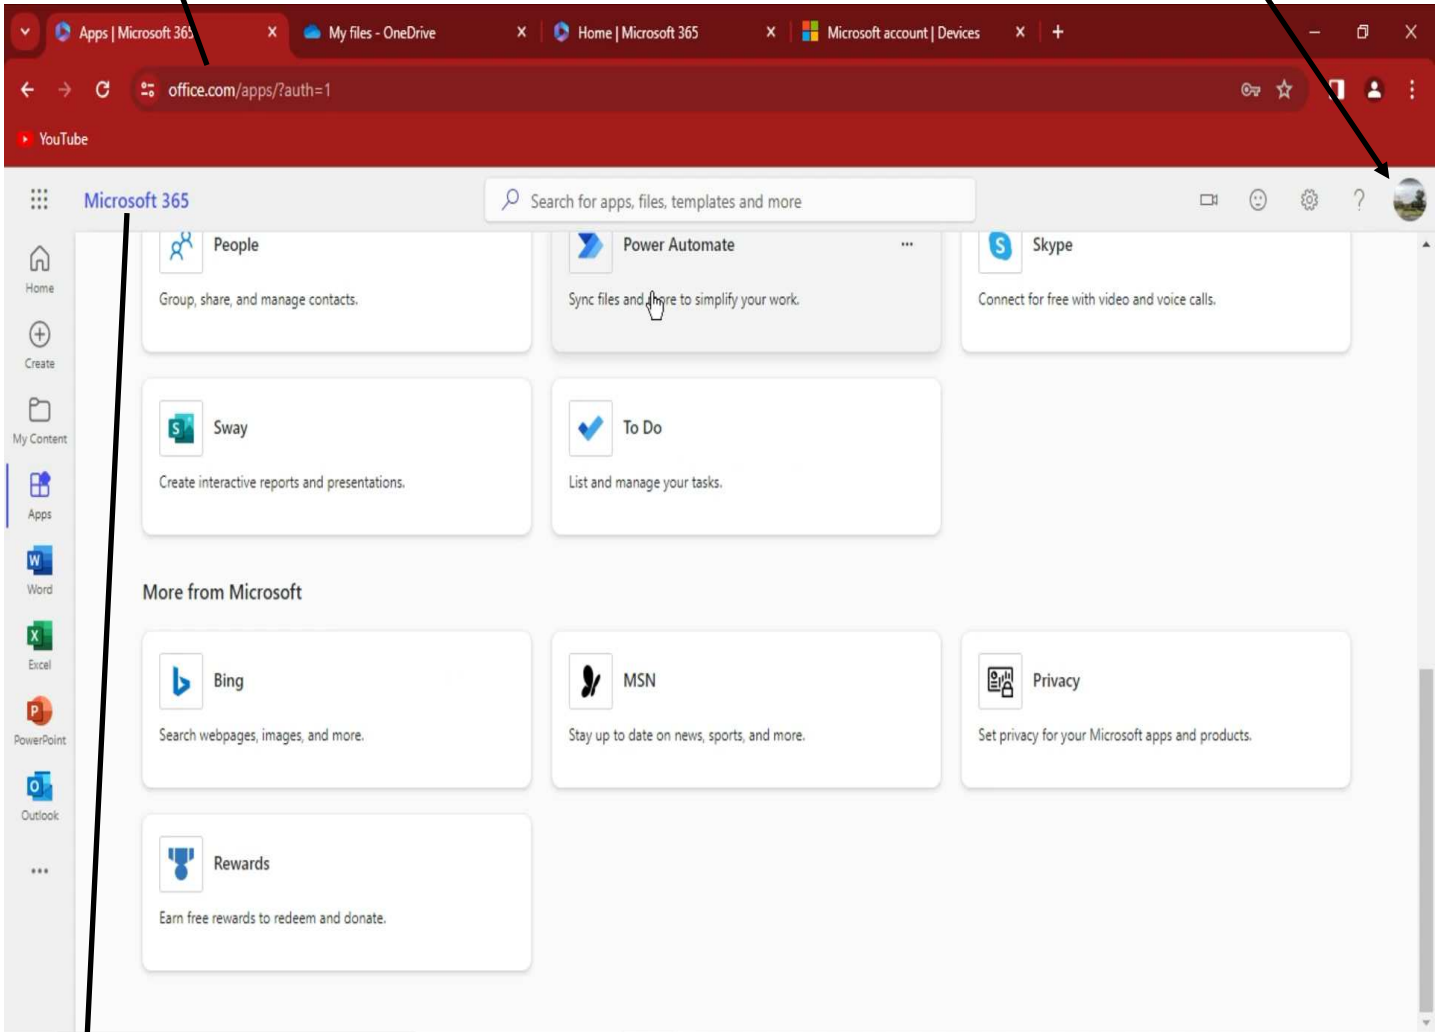

Had hacked in and changed and Added Microsoft 365 and One Drive Against the rule of the council and against the rule that only 1 person is to work on Computers

**A Very Serious law breaking Offence .**

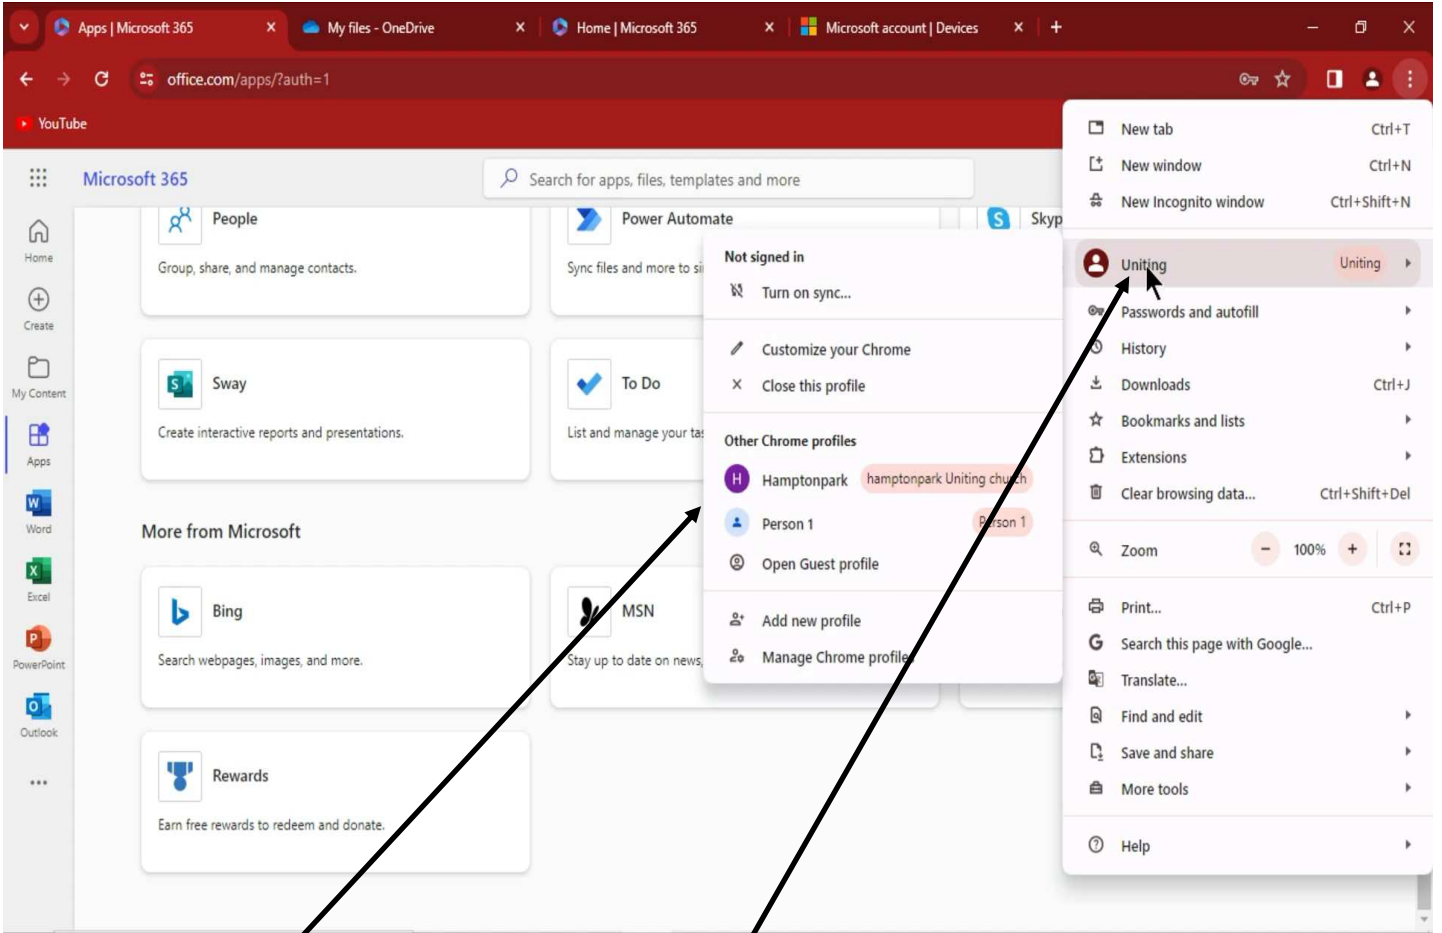

**And It is deliberate No excuses the Access of Microsoft account without authority .**

**Churches Microsoft account  
Had been changed to this**

**The Churches Logo which I set up on the Microsoft  
account In the Churches Name**

**Microsoft 365 which was banned**

Never used by ME

**ONE DRIVE REMOVED NEVER SET UP BY ME**

**NOTE - LOGO ONLY SETUP ON STANDALONE**

Okay. It would be good to have a set of guidelines to establish which YouTube videos can be used (such as those recently requested by Rev Ineke and the Dacanays) and which ones can't.

Niki

Niki,

We are unable to use this Video clip for Sunday service because of copyright issues.

Church Copyrights was on Dec meeting agenda but was unable to be discussed .  
This will be included in the next Council Meeting.

Greg

**Subject:** Video

Hi Greg,

Are we able to use this YouTube video as part of the Early Word?

<https://youtu.be/bqA1qXbVVQ0>

Niki had been advised on several occasions inc by Ineke .

That until Church Council Approves The Purchase of a print Server to allow printer access nothing will be done

Council had not approved the print server at this stage

Hello Heather, Greg and David,

Just letting you know that we had a disruption to the electricity yesterday where some of the power was cut off to the office. David Leak assisted to restore power, however since then I have not been able to reliably connect to the internet. I am also having the ongoing issue for some months now of not being able to connect to the printer in the office, either wirelessly or with the cord (I know this *\*should\** work, but it doesn't). As a workaround I have to send all documents to Heather Sheppard to print, however this is quite inefficient. If anyone has ideas to assist with these tech issues, please advise.

Kind Regards,

*Niki Oostwoud*

Thank you Niki for raising this.

It seems that the Brother printer is not capable of having both cable and Wifi.

I don't know why your laptop is not connecting with the cable.

We will have to check the settings.

Before June this year, I tried running the printer as WiFi, but it took a lot longer to connect and print from the office computer, so I left it as cable.

Overall, I am disappointed with the Brother printer because of its limitations but have not investigated alternatives .

Hi Heather and Greg.

Sue told me about her laptop being slow.

I had a brief look and ran Norton's.

It didn't find any software problems but came back with message that there are 35 tracking bugs.

The laptop is running extremely slow, or when you click on an program and it takes a long time to open it.

David

## David Had Not sought council or Chairperson or the IT Person for authority for Brooke to take laptop home after her employment had ceased

Hi Heather,

As part of Brooke's end of service at HPUC, she handed me the phone, the Debit Card and the keys she had been issued with for her work. I have hidden them in the filing cabinet in the office.

We will need to work out what we do with the debit card as it has been issued in Brooke's name.

I will discuss this with the bank if you so desire.

Brooke believes she has transferred all the relevant files from the laptop to Sue's laptop.

Brooke has taken the laptop home to check and remove any personal files and will return it on Tuesday.

I believe that the laptop should be given to Greg for 'servicing' ready for whoever replaces Brooke.

Hi Greg,

Please find attached the draft Order of Service for next Sunday. The liturgy for the slides is on the 2<sup>nd</sup> page onwards. Are you happy to continue doing the slides or should I ask Heather S to work on it? As part of the sermon, I would like to show a video from Common Grace: I think it is important to allow indigenous voices to speak for themselves. My family friend Safina is presenting in this video along with Ray Minnieon and others. I would like to show during the reflection. It's downloadable from Google Drive [here](#), please let me know if there are any tech issues. See below permission granted for use in livestream. I'll leave it up to you whether you would like to livestream the service – it will not really be an intergenerational service, but we may be sitting in the round. Just let me know what you decide.

Thanks heaps,

Niki

Church Council had made the decision that I would do the PowerPoints for worship just pushing the boundaries ?

Power point created at home

When used on Worship Computer

This is how they should appear

### Conclusion

Never should David leak Name appear as author or Modified on the Worship or any computer at Church

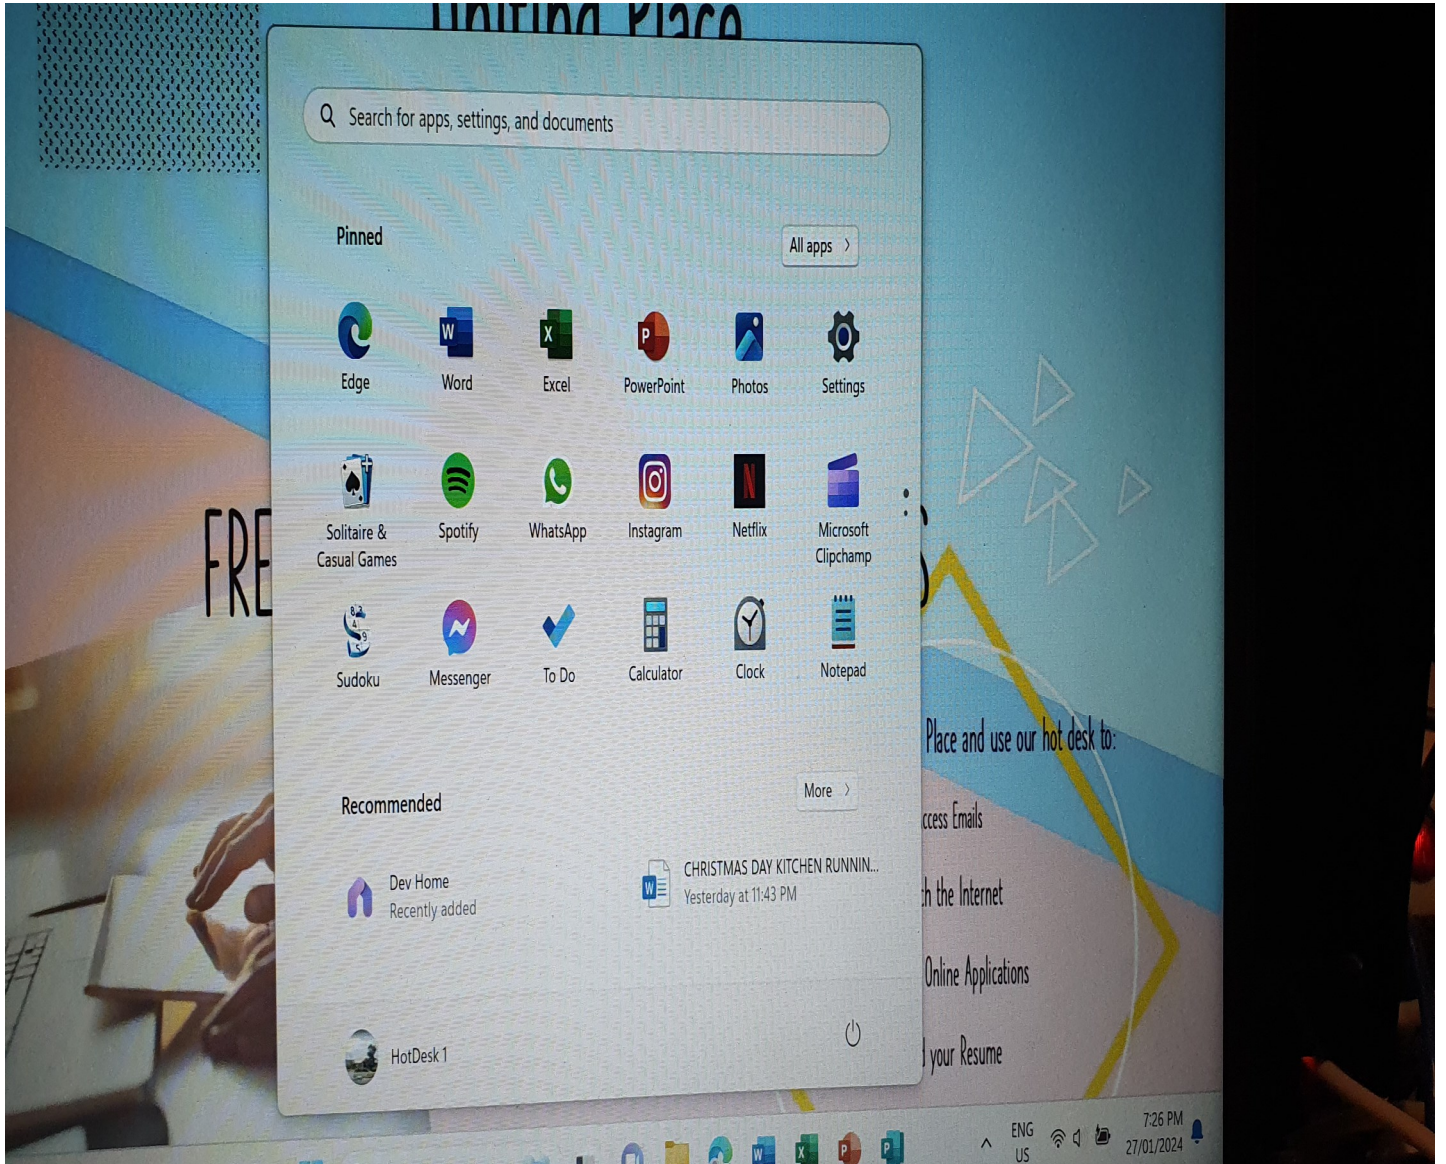

As they are all Standalone

It is very clear that all the photo show David has Unauthorised and or Hacked the computer system as well as breached copyrights as well

As Not Complied by the council decisions using and changing Microsoft account , using one drive these Are very Serious law infringments

Not to mention how many times David has been told by the chairperson not to do any multimedia or IT Work

# Hot Desk Laptop Found Syncing on 27 Jan 2024

lator

Clock

Notepad

More >

CHRISTMAS DAY KITCHEN RUNNIN...

Yesterday at 11:43 PM

Place and use our hot desk to:

Online Applications

One Drive Has been Synced to HotDesk Laptops

Date 17 Jan 2024

It is very clear that the church council decision have been totally ignored and disregard the photo are proof and cannot be denied .

The idea of getting a external IT person in has been miss understood

The Idea of this is as a second opinion so as to prove the unauthorised changes so that legal action can be taken .
